Province Automation specializes in long-life automation systems which we ship world-wide, including Bagging Systems and Plastic Degating Systems. We offer complete in-house automation capabilities including:

- > Mechanical Design
- > Fabrication & Machining
- > Electrical Panel Build/Wiring
- > Assembly & Installation
- > Programming and Debugging

**Save time and money** by automating your processes. Contact Province Automation for more information.

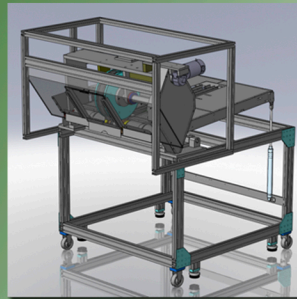

*At Province Automation, our mission is to provide customers with a single source of innovative engineering solutions, automation services, and manufacturing support. With over twenty five years of experience in designing and building automation machinery, Province Automation has always and will continue to put the customer's best interest first.*

### Bagging Systems

- 1100 - Mini Bagger (3"-4" stock)
- 1200 - Small Bagger (5"-12" stock)
- 2200 - Large Bagger (6"-22" stock)
- > 3.5 - 4 mil. bags
- > Multiple feed options
- > Tailored to your specific requirements
- > Quick installation
- > Options: Hole Punch, Date Code

### Degating Systems

- > Designed to quickly separate injection molded cable ties
- > Can collect and manage parts for further processing
- > Can be used independently or in conjunction with a fully automated cell

### Other Products & Services

- > **Prototype Machining:** 1-offs, "napkin sketches" to 3-D models, and prototype fixturing for product testing - Province Automation can help bring your ideas to market.
- > **Safety Guarding:** Design and build guarding that is customized to your individual machines and processes to ensure you meet or exceed OSHA standards for safety.
- > **Replacement Parts Orders:** Province Automation manufactures the replacement/spare parts you need in a timely manner to ensure your machines stay running. We can also act as a 3rd party vendor to order or customize any parts needed for your equipment.
